TOWN CLERK'S REPORT.

Ninety-nine dogs were reported as owned or kept in the town. Of these, the license has been paid on 83 dogs, making a total of \$202. Nine have been reported as dead, 2 as having been sold or transferred, and one family has moved out of town—leaving 4 dogs on which the license has not been paid. The penalty for keeping an unlicensed dog is fifteen dollars. If this were enforced according to law in these cases it would bring in \$60. The license for dogs should be paid the first of May or within thirty days.

In the vital statistics for 1919, there have been recorded 5 marriages, 10 births, and 20 deaths.

Twenty-one automobiles have already been registered with the town clerk for paying the tax to the town and obtaining permits for 1920 according to the new law.

A. A. BENNETT,
Town Clerk.

Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board of Gilmanton:

I submit herein my first report as superintendent of schools.

I shall attempt only a brief statement, based upon the experience of the past half-year. The report is brought down to February first of the present year.

Under the orders of the State Board of Education, a survey of all usable school buildings in the district has been made, giving data wherein the schoolhouses meet and do not meet the state requirements. Since the standard school, according to the new state law, must be "in a suitable and sanitary building . . . equipped with approved furniture, books, maps and other necessary appliances," it is highly essential that the district adopt a constructive plan to put all the schoolhouses in suitable condition. Considered in a financial way, this may imply some consolidation of schools.

Believing it the best policy to begin where the greatest number of scholars will be benefited, I would recommend (1) the building of a new house at Gilmanton Corner on a site where the children will have suitable playground facilities; or, an arrangement made whereby the scholars can be accommodated in the Academy building. Certainly the condition of the old building will not warrant the necessary repairs to put it in model condition; (2) the grading of school yard, the building of a suitable wood shed, and kaustine or cement vaults installed at the Iron Works; (3) the removal of the Griffin house to a more suitable lot or the transference of this school to the Jones' Mills school-house.

The six essential points that the new state law demands of us in the administrative duties are given in Section 24, viz.:

"A standard school as that term is used in this act is one (1) maintained for at least thirty-six weeks in each

year, (2) in a suitable and sanitary building, (3) equipped with approved furniture, books, maps and other necessary appliances, (4) taught by an approved teacher, (5) directed and supervised by an approved superintendent, (6) with suitable provision for the care of the health and physical welfare of all pupils."

To assist in the educational duties, the State Board has issued a curriculum for the first, second and third grades as the minimum requirements in these respective grades throughout the state.

To meet these requirements it is essential that you make liberal appropriations for text-books and necessary appliances.

TEACHER SHORTAGE.

It seems almost needless for me to take time and space to impress on you the fact that the greatest crisis to American democracy is the teacher problem, when every paper and magazine is teeming with data confirming this statement. The Bulletin of the National Education Association for November states: "Over 100,000 positions in the public schools today are vacant or filled by teachers who cannot pass the minimum tests for teachers' certificates. Strong teachers are leaving the profession because of inadequate pay. Positions are being filled by immature and untrained teachers."

On December 6, Governor Runyen of New Jersey stated among other things in a proclamation to his people: "If our children are to be taught by incompetent teachers, or are not to be taught at all, the end of American democracy as we know it, is in sight."

State superintendent of Maine, Mr. Thomas, stated on December 28: "That 80 schools of Maine were closed because of the teacher shortage, and that the number will soon be greatly augmented. If present emergencies are not met at the coming town meetings, there will be 500 schools closed next autumn. Out of 650,000 teachers in the United States, 143,000 left the profession last year."

Gen. Frank S. Streeter stated on December 31, in regard to the problem in New Hampshire: "Fifty of our schools are closed because of a lack of teachers and probably eighty or more will be closed within a few weeks. From statistical experience, we may expect there will be withdrawals of between 400 and 450 teachers at the end of the present year. Our two normal schools will graduate less than 100."

To this situation, there is but one answer and that is our teachers are underpaid in every town and state of our nation. According to latest statistics, living expenses have advanced 86 per cent, wages in the ordinary pursuits of life 112 per cent. Under these circumstances, do you wonder that we, as a nation face the greatest crisis of our national history? That Bolshevism is gaining a foothold on American soil?

It is no time to preach financial retrenchment in educational matters. To do so would express a flavor of unpatriotic devotion and a low sense of loyal duty to public welfare. Do you realize that of the boys who stopped and turned back the hordes of autocratic vandals at Chateau Thierry over 60 per cent were college graduates, the highest products of the free school system of America? That the chief assets which won the war were brains? That the same aspirations for autocratic power or no government at all are in the world today? That there is a lull in the struggle? That we are training the generation in our schools today that may be called to finish the fight?

Indeed, we should rejoice in the privilege of paying an increase in taxation, when we realize that had the outcome of the struggle been otherwise our property and homes would have been confiscated, our sons and daughters torn from our embrace and perhaps we ourselves led out to face a firing squad.

IN GENERAL.

I have found the teachers of Gilmanton not only efficient in qualifications and effective in the administration of their

respective schools but also loyal to the interests of the town and their profession.

Therefore I trust that in recognition of their service, the citizens of Gilmanton will feel it their patriotic duty to make as large and liberal appropriations for salaries and for enrichment of the course of study as is comparable to and compatible with the vital interests of free government.

In closing, I wish to thank the teachers who have worked with me during this past half-year and assure them of my heartiest appreciation, to express my appreciation for the assistance and loyal support of the School Board and for the congenial attitude of parents, citizens and pupils, which has helped to make my first half-year a pleasant one.

Respectfully submitted,

FREDERICK T. JOHNSON,
Superintendent of Schools.
